OpenAI Response: gpt-3.5-turbo

Based on the information you provided, if you are currently 30 years old and today is May 9, 2024, that means you were born in the year 1994.

Price : \$0.000080

OpenAI Response: gpt-4-turbo

Hello John! If you are currently 30 years old as of today, May 9, 2024, and you were already 30 in January of this year, that means you turned 30 sometime between January 1 and January 31, 2024. Therefore, we can calculate your birth year by subtracting your age from the current year.

2024 - 30 = 1994.

Thus, you were born in January 1994.

Price : \$0.003280

OpenAI Response: gpt-4o

Hello, John! Given that today is May 9, 2024, and you are 30 years old, you would have been born in 1994. Since your birthday is in January, you would have already turned 30 earlier this year.

Price : \$0.001010
